

## Seed-grant Project Design

### Project Design

The Champions projects can either be:

#### DESIGNED IN ADVANCE

by the Champion during the application phase

#### PROS

- Greater flexibility and creativity given to the Champions

#### CONS

- Champions projects could potentially be missing certain elements

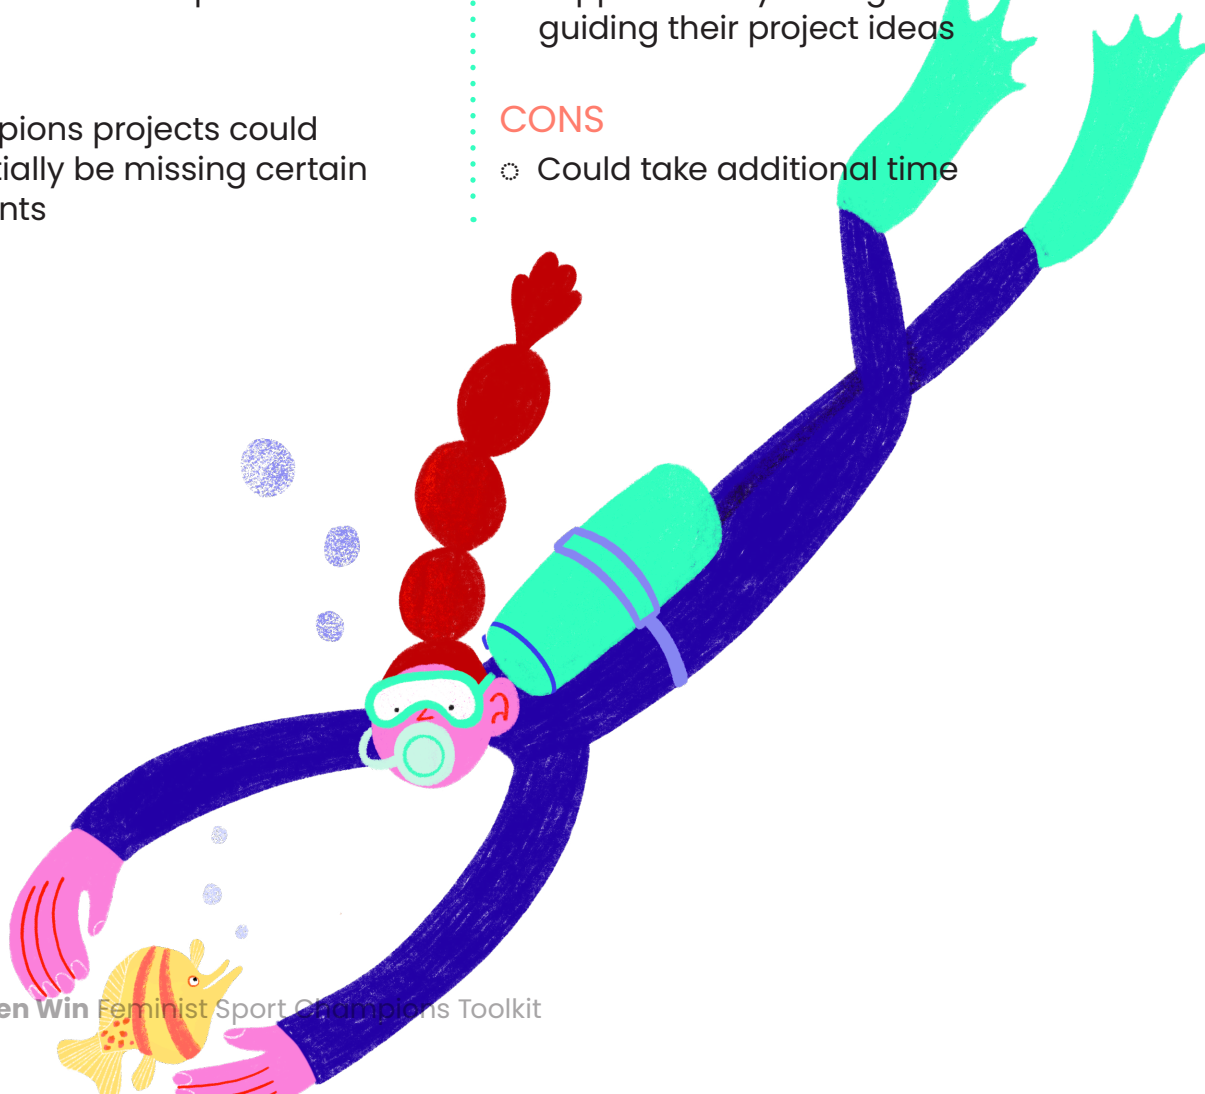

#### DESIGNED AFTER THE CHAMPIONS HAVE BEEN SELECTED

#### PROS

- Champions could receive greater support from your organisation in guiding their project ideas

#### CONS

- Could take additional time

## Seed-grant Project Design

### Champion Project Criteria

This refers to the criteria for the Champions projects. Criteria can be either:

#### RESTRICTED

your organisation could provide restrictions on types of activities, budget allowance, methods etc.

#### PROS

- Organisation retains greater control
- Potentially less risky from a budgetary perspective if your organisation sets criteria on what the seed grant can and cannot be spent on
- Restrictions on type of activities, target group to be engaged etc. could ensure that your organisation is more likely to meet a specific objective

#### CONS

- Less opportunities for Champions to develop leadership and problem-solving skills

#### FLEXIBLE

your organisation provides little-to-no restrictions on how the Champions design and implement their projects

#### PROS

- Greater independence for Champions could allow for greater leadership and problem-solving skills
- Flexibility allows for greater creativity from Champions

#### CONS

- Less organisational control/ input in Champions projects and activities
